WELCOME TO OUR COMPANY

Welcome to Eagle Exports Leather India! I am Mohd Sultan, a proud leather craftsman with a rich family heritage in the leather industry spanning six decades. Our story begins with my great-grandfather, a dedicated raw leather supplier, and continues through the generations with my grandfather, who specialized in semi-finished leather. My father further elevated our family's legacy by establishing the renowned Farzana Tannery in Jajmau, known for its high-quality finished leather.

Today, I carry forward this tradition by crafting exquisite leather bags and accessories. Each piece is made with the finest leather sourced directly from our own Farzana Tannery, ensuring unmatched quality and craftsmanship. Our in-house production allows us to maintain strict control over the manufacturing process, guaranteeing that every product meets our high standards.

Explore our collection and experience the legacy of craftsmanship and quality that has been our hallmark for generations.
